

# **Jer Thorp**

**and the Office for Creative Research**

# Jer Thorp

## Intro

“

Jer Thorp is an artist and educator from Vancouver, Canada, currently living in New York. Coming from a background in genetics, his digital art practice explores the many-folded boundaries between science, data, art, and culture.

”

Intro

**Data in a human context**

Ideas

**Visualization as interactive exploratory tool**

**Narrative structures and histories**

**Promoting equality in data systems**

in-Residence**  
(2017-pres.)

**Global Agenda  
Council on Design  
and Innovation**  
(member, alumnus)

**Adjunct  
Professor**

Intro

“

We were a hybrid research group, working at the intersection of technology, culture and education.

Ideas

We built user-focused tools, public space interventions and forward-looking prototypes in the service of understanding and humanizing complex data systems.
