Clock

Wednesday, September 6, 2017   21:38

Use processing to build a clock

Use any variable to map numerical information

Time is cyclical
It passes

Liner progression till it repeats

https://dvia.samizdat.cc/2017/exercise-1/

Start by copying and pasting examples into your sketches file

Alter and experiment
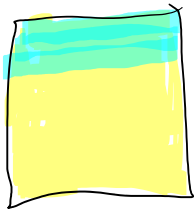

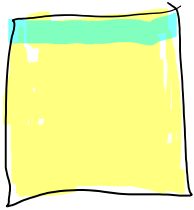

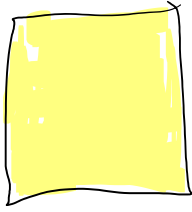

- Gradation in available color
- Representative color dictating time

60 60 24

120 240

480
